

**State Environmental Policy Act**  
**DETERMINATION OF NONSIGNIFICANCE (DNS) – SWCAA 24-015**

**Description of proposal:**

ADP Application CO-1090: The proponent has applied for a permit to increase gasoline throughput at an existing gas station and add two emergency generators powered by diesel engines. Increasing gasoline throughput will increase emissions of volatile organic compounds (gasoline vapors), including toxic air pollutants. No change in gasoline vapor recovery equipment is proposed. The only other possible impact of this proposal is increased vehicular traffic. The original SEPA review did not quantify vehicular traffic based on the amount of fuel sold; therefore, increasing the gasoline throughput does not modify the underlying SEPA trip data.

**Proponent:**

Space Age Fuel No. 202

**Location of proposal, including street address if any:**

9515 Old Pacific Hwy., Castle Rock, WA

**Lead agency:** Southwest Clean Air Agency

The lead agency for this proposal has determined that it does not have a probable significant impact on the environment. An environmental impact statement (EIS) is not required under RCW 43.21C.030(2)(c). This decision was made after review of a completed environmental checklist and other information on file with the lead agency. This information is available to the public on request.

- There is no comment period for this DNS.
- This DNS is issued under WAC 197-11-340(2); the lead agency will not act on this proposal for 15 days from the date below. Comments must be submitted by \_\_\_\_\_.

**Responsible official:** Clinton Lamoreaux, P.E.
