This permit is issued in accordance with, **WAC 173-425-060** and **SWCAA 425-060 Outdoor Burning Permit Program/Requirements** which states.

- (2) **Types of burning that require a permit.** Except as otherwise stated, a permit is required for the following types of outdoor burning in all areas under the Agency's jurisdiction.
- (f) Fire fighting instruction fires for training to fight structural fires in urban growth areas and cities with a population over ten thousand, and all other fire fighting instruction fires, except fire fighting instruction fires for training to fight structural fires as provided in RCW 52.12.150, and aircraft crash rescue fires and forest fires as provided in RCW 70.94.6546.
- (3) **Fees.** SWCAA may charge a fee for any permit issued under the authority of this rule, provided that a fee must be charged for all permits issued for weed abatement fires and fire fighting instruction fires. All fees must be provided in the Consolidated Fee Schedule and must not exceed the level necessary to recover the costs of administering and enforcing the burning permit program. SWCAA has established a schedule of permit fees as provided in the Consolidated Fee schedule established in accordance with SWCAA 400-098.

See Consolidated Fee Schedule (Table 10) <http://www.swcleanair.org/fees/index.asp>.

**HAZARDOUS WASTE ASSESMENT WAC 173-303:** The state's Dangerous Waste Regulations (WAC 173-303) require that demolition debris be evaluated to determine if it is dangerous. The evaluation should be completed before demolition to ensure that hazardous constituents are not released to the environment and do not present a risk to human health during or after demolition. These requirements apply to all buildings being demolished and are the responsibility of the property owner. Ecology's website, <http://www.ecy.wa.gov/programs/hwtr/demodebris/index.html>, provides more information about sampling and testing construction materials to determine if they present a risk. For more information please contact Rob Rieck at the Washington Department of Ecology: 360-407-6751 or [rori461@ecy.wa.gov](mailto:rori461@ecy.wa.gov).

**Fire Training Burn Permit Conditions:**

- **SWCAA must be notified on the day of the training prior to beginning the training burn;**
  - **The training burn cannot be conducted during an air pollution episode or any stage of impaired air quality as defined in RCW 70.94.715 and 70.94.473;**
  - **Notice of the training burn must be provided to the owners/residents of properties adjoining the property on which the training burn will occur, and to others who may be impacted;**
  - **Nuisance laws are applicable to the training burn, including nuisances relating to the unreasonable interference with enjoyment of life and property and deposition of particulate matter on other properties;**
  - **This permit must be kept available on-site throughout the training burn;**
  - **The training burn must not be initiated before the asbestos inspection, notification and removal requirements of SWCAA 476 have been fully complied with;**
  - **Other permit conditions:** \_\_\_\_\_
