**Veneer Driers**

Manufacturer name

Model name

Model number

Serial number

Year constructed

Number of Driers: _______________

Type: (1) Longitudinal
      (2) Jet
      (3) Other (Specify)

Energy Source (fuel):

(1) Hog fuel
(2) Natural Gas
   a. Number of Burners _______________
   b. Size _____________________________ (Btu/hr each)

Steam Heated? ____________________ Rate: __________ (lb/hr)

Total Number of Zones: __________________________________________________________

Total Number of Sections: _________________________________________________________

Overall Length of Drier: _____________________________

Number of Decks: _________________________________

Size and Spacing of Rolls: ____________________________

Operation Time of Dryer:

_______ hrs/day
_______ days/week
_______ weeks/year

(If additional room is needed, please attach an additional page.)

Dry moisture content (after veneer leaves dryer): __________________________

Number of Blowers: ____________________________

Horsepower (each): ____________________________

Rated CFM: ____________________________

Minimum Exhaust Stack CFM: __________ Damper setting __________ ( % open )

Maximum Exhaust Stack CFM: __________ Damper setting __________ ( % open )

Number of Exhaust Stacks and Where Located: __________________________

Other Exhaust Systems on Dryer (Describe): __________________________

Diameter of Stacks: __________________________

Height of Emission Points: __________________________

Drier Temperature: __________________________

Point Where Temperature is Monitored: __________________________
