

PUBLIC NOTICE

Notice to the public is hereby given that the Southwest Clean Air Agency (SWCAA) is providing a thirty (30) day public comment period for the preliminary determination to issue Air Discharge Permit 25-3714 to Skyline Steel. This preliminary determination approves the installation of a new plasma cutter at Skyline Steel's facility at 9 International Way in Longview, Cowlitz County, Washington. The new equipment will increase emissions of nitrogen oxides by up to 1.38 tons per year, emissions of particulate matter by up to 0.057 tons per year, and emissions of toxic air pollutants by up to 0.00022 tons per year.

Copies of the preliminary Air Discharge Permit and associated Technical Support Document are available for review at 5101 NE 82nd Ave., Suite 102, Vancouver, Washington 98662, Monday through Friday from 7:00 a.m. to 5:30 p.m. Electronic copies are available for review in the permit section of SWCAA's website, <https://www.swcleanair.gov/permits/publiccomments.asp>. This material will be made available in other media, if necessary. All written or oral comments must be received by SWCAA within thirty (30) calendar days after the date of publication. A public hearing may be held if SWCAA determines that significant public interest exists. In the event a public hearing is held, the public comment period will be extended beyond the public hearing date.
