

PUBLIC NOTICE

Notice to the public is hereby given that the Southwest Clean Air Agency (SWCAA) is providing a 30 day public comment period for the preliminary determination to issue Air Discharge Permit 17-3243 to Hardel Mutual Plywood Corp. This preliminary determination approves installation of a film press at an existing plywood manufacturing facility located at 143 Maurin Road in Chehalis, Lewis County, Washington. A single film press will be installed for the purpose of applying overlay paper to plywood panels. The proposed project will not expand or change any existing operations at the facility. Low emission resins and vertical dispersion will be used to minimize the impact of associated air emissions.

Copies of the preliminary Air Discharge Permit and associated Technical Support Document are available for review at 11815 NE 99th Street, Suite 1294, Vancouver, Washington, Monday through Friday from 7:00 a.m. to 5:30 p.m. Electronic copies are available for review in the permit section of SWCAA's internet website (www.swcleanair.org/permits/publiccomments.asp). This material will be made available in other media, if necessary. All written or oral comments must be received by SWCAA within thirty (30) days after the date of publication. Final action by SWCAA to approve, modify, or deny the proposal will be taken within ten (10) days after the close of the comment period. If there is a demonstrated significant public interest, a public meeting may be held at the close of the public comment period.
