

## **PUBLIC NOTICE**

Notice to the public is hereby given that the Southwest Clean Air Agency (SWCAA) is providing a 30-day public comment period for the preliminary determination to issue Air Discharge Permit 18-3289 to Hardel Mutual Plywood Corporation. This preliminary determination approves the installation of a new spray coating booth at an existing plywood manufacturing plant. No changes will be made to existing manufacturing operations. The spray coating booth will be located inside an existing building. Installation will not involve new building construction, excavation or paving. Existing impacts to all media other than air will remain unchanged. Air impacts will be minimized through the use of process enclosure, low VOC coatings and particulate filtration.

Copies of the preliminary Air Discharge Permit and associated Technical Support Document are available for review at 11815 NE 99th Street, Suite 1294, Vancouver, Washington, Monday through Friday from 7:00 a.m. to 5:30 p.m. Electronic copies are available for review in the permit section of SWCAA's internet website ([www.swcleanair.org/permits/publiccomments.asp](http://www.swcleanair.org/permits/publiccomments.asp)). This material will be made available in other media, if necessary. All written or oral comments must be received by SWCAA within thirty (30) days after the date of publication. Final action by SWCAA to approve, modify, or deny the proposal will be taken within ten (10) days after the close of the comment period. If there is a demonstrated significant public interest, a public meeting may be held at the close of the public comment period.
