PUBLIC NOTICE

Notice to the public is hereby given that the Southwest Clean Air Agency (SWCAA) is providing a 30 day public comment period for the preliminary determination to issue Air Discharge Permit 20-3431 to the Port of Longview. This preliminary determination approves installation of a new dust collection system at Warehouse 10. Affected equipment will operate in support of bulk material handling and storage operations located at 10 Port Way in Longview, Cowlitz County, Washington. The proposed action will not change the nature of existing operations and does not involve any excavation, road construction or building construction. There will be no significant impact on any media other than air. Emissions to the ambient air will be minimized through the use of process enclosure and high efficiency filtration. Potential facilitywide emissions of particulate matter (PM10) will increase by 20.65 tpy to 60.94 tpy. Copies of the preliminary Air Discharge Permit and associated Technical Support Document are available for review at 11815 NE 99th Street, Suite 1294, Vancouver, Washington, Monday through Friday from 7:00 a.m. to 5:30 p.m. Electronic copies are available for review in the permit section of SWCAA's internet website (www.swcleanair.org/permits/publiccomments.asp). This material will be made available in other media, if necessary. All written or oral comments must be received by SWCAA within thirty (30) days after the date of publication. If there is a demonstrated significant public interest, a public meeting may be held at the close of the public comment period.
