

## **PUBLIC NOTICE**

Notice to the public is hereby given that the Southwest Clean Air Agency (SWCAA) is providing a 30 day public comment period for the preliminary determination to issue Air Discharge Permit 23-3601 to Weyerhaeuser NR Company. This preliminary determination establishes voluntary emission limits reducing potential emissions from lumber drying at the sawmill located at 2901 Industrial Way in Longview, Cowlitz County, Washington. The voluntary limits will be federally enforceable and are being taken for the purpose of reducing potential emissions to levels below the applicability thresholds of the Air Operating Permit Program.

Copies of the preliminary Air Discharge Permit and associated Technical Support Document are available for review at 11815 NE 99th Street, Suite 1294, Vancouver, Washington, Monday through Friday from 7:00 a.m. to 5:30 p.m. Electronic copies are available for review in the permit section of SWCAA's internet website ([www.swcleanair.gov/permits/publiccomments.asp](http://www.swcleanair.gov/permits/publiccomments.asp)). This material will be made available in other media, if necessary. All written or oral comments must be received by SWCAA within thirty (30) days after the date of publication. If there is a demonstrated significant public interest, a public hearing may be held at the close of the public comment period.
