

**State Environmental Policy Act  
DETERMINATION OF NONSIGNIFICANCE (DNS) – SWCAA 21-016**

**Description of proposal:**

ADP Application CO-1039: The proponent has applied for a permit to install a new replacement natural gas-fired 4.976 MMBtu/hr wastewater evaporator. The new evaporator will replace an existing 1.74 MMBtu/hr wastewater evaporator. The combustion of natural gas in the wastewater evaporator will produce combustion emissions included nitrogen oxides and carbon monoxide. The wastewater itself has the potential to produce odor. With the proposed operating and emission limits, the new equipment will not have a significant adverse impact on ambient air quality. This permitting action is not expected to have a significant adverse impact on any element of the environment, including traffic, noise, glare, housing, or recreation opportunities.

**Proponent:**

Applied Plant Science (Mr. Scott Collins)

**Location of proposal, including street address if any:**

1625 Heritage Street  
Woodland, WA 98674

**Lead agency:** Southwest Clean Air Agency

**The lead agency for this proposal has determined that it does not have a probable significant impact on the environment. An environmental impact statement (EIS) is not required under RCW 43.21C.030(2)(c). This decision was made after review of a completed environmental checklist and other information on file with the lead agency. This information is available to the public on request.**

- There is no comment period for this DNS.
- This DNS is issued under WAC 197-11-340(2); the lead agency will not act on this proposal for 15 days from the date below. Comments must be submitted by \_\_\_\_\_.
