

State Environmental Policy Act

DETERMINATION OF NONSIGNIFICANCE (DNS) – SWCAA 22-003

Description of proposal:

ADP Application CL-3182: Installation of a new powder coating operation. Proposed equipment consists of a staging area, a coating booth, and a curing oven. The project is being installed in an existing building. Project does not involve any excavation or paving. Impacts on media other than air are expected to be minimal and consistent with existing use. Particulate matter emissions from powder coating will be controlled with process enclosure and high efficiency filtration. Combustion emissions from oven operation will be minimized with proper combustion controls.

Proponent: Wickum Weld, Inc. (Jarrod Wickum, President)

Location of proposal, including street address if any:

2100 Kotobuki Way in Vancouver, Washington 98660

Lead agency: Southwest Clean Air Agency

The lead agency for this proposal has determined that it does not have a probable significant impact on the environment. An environmental impact statement (EIS) is not required under RCW 43.21C.030(2)(c). This decision was made after review of a completed environmental checklist and other information on file with the lead agency. This information is available to the public on request.

- There is no comment period for this DNS.
- This DNS is issued under WAC 197-11-340(2); the lead agency will not act on this proposal for 15 days from the date below. Comments must be submitted by _____.
