

**State Environmental Policy Act  
DETERMINATION OF NONSIGNIFICANCE (DNS) – SWCAA 23-004**

**Description of proposal:**

ADP Application CL-3185: The proponent has applied for a permit to install a new reactor and associated ammonia scrubber at a semiconductor research and development facility. Small amounts of toxic air pollutants, primarily ammonia, may be emitted from this unit. At the emission levels proposed, the new equipment will not have a significant adverse impact on ambient air quality. This permitting action is not expected to have a significant adverse impact on any element of the environment, including traffic, noise, glare, housing, or recreation opportunities.

**Proponent:**

VTC Sunlight

**Location of proposal, including street address if any:**

18110 SE 34<sup>th</sup> Street, Building 4, Suite 410  
Vancouver, WA 98683

**Lead agency:** Southwest Clean Air Agency

The lead agency for this proposal has determined that it does not have a probable significant impact on the environment. An environmental impact statement (EIS) is not required under RCW 43.21C.030(2)(c). This decision was made after review of a completed environmental checklist and other information on file with the lead agency. This information is available to the public on request.

- There is no comment period for this DNS.
- This DNS is issued under WAC 197-11-340(2); the lead agency will not act on this proposal for 15 days from the date below. Comments must be submitted by \_\_\_\_\_.
