Proposal Description

Southwest Clean Air Agency (SWCAA) Rule Revisions Fee Removal / SWCAA 400 - 2019 IBR Update; SWCAA is proposing to change the manner in which federal regulations are incorporated by reference in multiple sections of SWCAA 400. Existing incorporations by reference citations contain an effective date as part of each citation. This practice leads to numerous and redundant date citations through the body of the rule, which are difficult to edit and keep current. SWCAA proposes to adopt a new stand alone rule section (SWCAA 400-025) that specifies a single effective date for all federal regulation incorporations by reference. Corresponding incorporation by reference citations in the remainder of the rule will be revised to cite the new rule section instead of individual effective dates.

Related Record**Notes**

Upon adoption of the proposed revisions, SWCAA will submit a request to the Department of Ecology to forward a portions of the final rule to EPA for inclusion in the State Implementation Plan.

Location

Address: The proposed rule revisions will affect regulated sources within SWCAA's jurisdiction. SWCAA's jurisdiction consists of Lewis, Wahkiakum, Cowlitz, Clark and Skamania counties.
