SOUTHWEST CLEAN AIR AGENCY CONSLIDATED FEE SCHEDULE

Adopted: May 4, 2017

Most Recent Revision: May 4, 2017

Effective: May 4, 2017

Listed in numerical order by SWCAA regulation number

Table 1 - SWCAA 400-036 Portable Sources from Other Washington Jurisdictions

Major Project	28	\$2,000	\$2,200	\$2,400	Per Review				
(vii) Variance Request:					•				
	11	\$800	\$880	\$960	Per Review				
(viii) Review of Ambient Impact A	nalysis:				•				
Ambient Impact Analysis	As req'd.	\$70	\$77	\$84	Per Work Hour				
Additional Work Hours	As req'd.	\$70	\$77	\$84	Per Work Hour				

*If additional types of review, as identified in Table B, are required by the Agency as a result of the proposed installation, replacement or alteration, an additional review fee shall be paid as described in Table B. (Total Application Fee = Filing Fee + Application Review Fee [Table A] + Additional Review Fee [Table B]). If the staff time required exceeds the number of work hours associated with the applicable fee specified in Tables A and B, the applicant will be invoiced for each additional work hour at the rate specified for additional work hours.

Each component city or town and county shall pay such proportion of the supplemental income to the Agency as determined by either one of two methods as provided under RCW 70.94.093. The first method is based on the assessed valuation of property within such city or town and county limits bears to the total assessed valuation of taxable property within the jurisdiction of SWCAA. The second method is based on the total population of such city or town and county bears to the total population of SWCAA. In addition, a combination of the two methods is allowable provided that such combination is shared at 50 percent each. The SWCAA Board of Directors has elected to use the second method based on population (per capita). The population shall be determined by the most recent State of Washington Office of Financial Management (OFM) population estimate.

Table 7 - SWCAA 400-100 Registration Requirements

1/3 AOP Program Budget	NA	NT 1			Pro-Rata Emissions
1/3 AOP Program Budget	NA	No chan	ges propos basis	sed to fee	Pro-Rata EUs
1/3 AOP Program Budget	NA		04818		Equal Share per Source

Three part fee assessment methodology. Operating Permit Program fees shall be determined using a threepart fee assessment methodology as described below:

(a) Participation Fee. Fees sufficient to cover one-third of the Board-approved Operating Permit Program budget shall be assessed such that each "stationary source" shall pay an equal share. The total Operating Permit Program budget shall be divided by three. This amount shall be further divided by the number of 40 CFR 70 "stationary sources" within the Agency's jurisdiction. Participation fees shall be equal in amount for each 40 CFR 70 source. The participation portion of the fee shall be assessed according to the following formula:

 $PF = B \div 3 \div n$, where;

В

- PF = Participation fee portion of total fee
 - = The total Agency budget for the Operating Permit Program
- n = The number of 40 CFR 70 sources

(b) Emissions Fee. Fees sufficient to cover one-third of the budget shall be assessed such that each "stationary source" shall pay an amount equal to that "stationary source's" portion of the total annual emissions of the fee applicable pollutants from all 40 CFR 70 "stationary sources" within the Agency's jurisdiction. The total Operating Permit Program budget shall be divided by three. The ratio of each "stationary source's" annual emissions (in tons) to the total annual emissions of fee applicable pollutants emitted by all 40 CFR 70 "stationary sources" within the Agency's jurisdiction shall be paid by the owner or operator of each "stationary source." The emissions portion of the fee shall be assessed according to the following formula:

 $EF = B \div 3 * SE \div TE$, where:

		. TL, where.
EF	=	Emissions fee portion of total fee
В	=	The total Agency budget for the Operating Permit Program
SE	=	The sum of annual emissions of fee applicable pollutants in tons per year from
		the individual 40 CFR 70 "stationary source" (not to exceed 7,500 tons per pollutant)
TE	=	The sum of annual emissions of fee applicable pollutants in tons per year from all 40 CFR 70 "stationary sources"

(c) Complexity Fee. Fees sufficient to cover one-third of the budget shall be assessed such that each 40 CFR 70 "stationary source" shall pay an amount equal to that "stationary source's" portion of the total emission units at all 40 CFR 70 "stationary sources" within the Agency's jurisdiction. The total Operating Permit Program budget shall be divided by three. The ratio of each "stationary source's" emission units to the total number of emission units located at all 40 CFR 70 "stationary sources" within the Agency's jurisdiction shall be paid by the owner or operator of each "stationary source." The complexity portion of the fee shall be assessed according to the following formula:

 $CF = B \div 3 * SU \div TU$, where:

-		- ,
CF	=	Complexity fee portion of total fee
В	=	The total Agency budget for the Operating Permit Program
SU	=	The number of emission units at a "stationary source"
TU	=	The number of emission units at all 40 CFR 70 "stationary sources"

(d) Total Fee. The amount of the annual assessed fees for each 40 CFR 70 "stationary source" shall be the sum of the participation, emissions and complexity fee portions (PF+EF+CF = Total Fee). The sum of the total fees for all 40 CFR 70 "stationary sources" within the Agency's jurisdiction shall be equal in amount to the Board adopted budget for the Operating Permit Program.

Permit Application Fees. Before the Agency may review a permit application or issue a permit, the applicant shall submit all applicable fees as detailed in the following paragraphs and tables. Total Application Fee = Filing Fee + Legal Notice Fee (if applicable) + Permit Application Review Fee [Table A] + Additional Review Fee [Table B] (if applicable) + Major NSR Review Fee [Table C] (if applicable).

Applicability Determination. If the owner or operator of a "new source" is unable to determine the applicability of this section, a formal determination may be requested from the Agency. A formal determination requires the submission of project related documentation sufficient for the Agency to identify affected emission units and quantify potential emissions, and the payment of the "Applicability Determination" fee as shown in the table below. This fee provides for up to 4 hours of staff time to review and/or consult with the owner or operator regarding the submitted documentation. If more than 4 hours of staff time are needed to make a determination, additional staff time will be invoiced to the owner or operator at the "Additional Work Hours" rate shown in the table below. The Agency will provide a written applicability determination to the owner or operator subsequent to reviewing the submitted documentation.

Filing Fee. A "Filing Fee," as shown in the table below, shall be submitted for each permit application.

Legal Notice Fee. An applicant who submits an Air Discharge Permit (ADP) application that requires newspaper publication of a Legal Notice pursuant to SWCAA 400-171 will be invoiced for an additional fee. The additional fee will be equal to the actual cost of publication plus the amount shown in the table below to compensate for one hour of staff time required to prepare, mail and invoice the public notice.

Additional Work Hours. An applicant may be invoiced for additional staff time at the rate specified for additional work hours if the required work hours exceed the number of work hours associated with the applicable fees.

Expedited Application Review. An applicant may request expedited processing of a permit application. The Agency shall, at its own discretion, determine if available permitting resources are sufficient to support expedited processing. If the application is accepted for expedited processing, the applicant must pay double the filing, review and additional work hour fees as shown in the table below. An expedited permit application will be processed as soon as possible and receives priority over non-expedited applications. However, the Agency will not guarantee an issue date for expedited permits since the development and issuance of a permit is highly dependent on the accuracy/completeness of the application and the responsiveness of the applicant.

Eas Catagorias	Work*	Fee Effective Dates			Ess Applicability
Fee Categories	Hours	Current	1/1/2018	1/1/2019	Fee Applicability
Permit Application Fees:					
Applicability Determination	4	\$300	\$330	\$360	Per Application
Filing Fee	NA	\$500	\$550	\$600	Per Application
Legal Notice Fee	NA	Cost+\$70	Cost+\$77	Cost+\$84	Per Notice
Additional Work Hours	As req'd.	\$70	\$77	\$84	Per Work Hour
Expedited Review	NA	All fees are doubled			Per Application

Permit Application Review Fee. A permit application review fee shall be paid for each permit application. The applicable permit application review fee for each permit application shall be determined from Table A based on the primary emission unit or activity of the proposed new, modified or altered "stationary source." Permit application review fees based on emissions are to utilize actual or proposed allowable emissions, after controls, as supported by test data or emission factors, not potential to emit. Permit application review fees based on equipment capacity or size are to utilize the design capacities of affected equipment. If the staff time required to review a permit application exceeds the number of work hours associated with the applicable review fee specified in Table A, the applicant will be invoiced for each additional work hour at the Additional Work Hours rate as shown in Table A.

Additional / Major New Source Review (NSR) Fees. If additional actions, as identified in Tables B and C, must be performed by the Agency as a result of the proposed installation, alteration or modification, the applicant shall pay additional fees as specified in those Tables. The fees identified in Tables B and C are cumulative. If the staff time required to complete the additional review exceeds the number of work hours associated with the applicable review fee specified in Tables B and C, the applicant will be invoiced for each additional work hour at the Additional Work Hours rate as shown in Tables B and C.
